

## Women Leadership Development Programme

**Meivia Global Services LLP** is a management consulting firm that works with organizations to provide solutions for their challenges and delivers a sustainable change. A quintessentially Indian firm, Meivia is defined and driven by long lasting relationships with its clients.

### History

Founded in 2002, as Meivia International, by two women entrepreneurs, to facilitate bidirectional business between India and Israel, Meivia has provided consulting services both in the India-Israel corridor and within India. After having deliberately stayed small, the company was rebranded as Meivia Global Services LLP in 2017 with an intention to grow beyond our own self-imposed limits.

### Women Leadership Development Program

Given its history and the backgrounds of its founders, Meivia is passionate about the development of women in business leadership roles. Our research shows that while many organizations are committed to bringing more women into leadership positions, they are unsure of the knowledge that needs to be imparted to help women make that transition. Our Women Leadership Development program is designed to bridge this gap.

Some of the modules covered in the program are:

- Challenges and Choices of a Woman Leader
- Leading and Managing Teams
- Gender and Cultural Sensitivity
- Managing Change
- Negotiation
- Leveraging Networks
- Communication
- Introduction to essential Organizational Functions

While the above is an indicative list of the topics that are included in the program, the course can be customized as per the requirements of the client organization. This course is best suited for those women executives earmarked by the client organization for leadership roles in the foreseeable future.
